There is no additional noise, vibration or visual disturbance since the split heat pump can be placed as far as 30 meters away from the jacuzzi.

An intuitive control panel with full integration into the jacuzzi's control is possible with RS-485, DRY contact or WLAN.

Split heat pump's water unit can be fully integrated inside the jacuzzi. It is thus fully invisible and also protected against frost.

Return your complete investment of a heat pump and installation within 3 years in private use (2500 l jacuzzi, 38°C, operated for private use up to 2hrs per day, whole year operation, electricity price 0.45€/kWh) or within 1 year in commercial use (2500 l jacuzzi, 38°C, operated for commercial use up to 8hrs per day, whole year operation, electricity price 0.45€/kWh).
